OPERATING & SAFETY INSTRUCTIONS

FAILURES TO READ AND FOLLOW ALL INSTRUCTIONS MAY RESULT IN INJURIES OR DEATH.

SAFETY INSTRUCTIONS

1. Gorilla Ladders® multi-position wheel kit must only be used with the MPXA and MPXT series multi-position ladders.

2. Wheels must only be used to transport the ladder.

3. Wheels should never make contact to any surface when using the ladder or when adjusting the ladder. The ladder may roll out and cause injury or death.

4. When using the multi-position in the extension mode, the wheels must always be at the top of the ladder.

QUESTIONS, PROBLEMS, OR MISSING PARTS?
If any parts are missing, damaged, or if you have any questions or need additional instructions, visit us at www.gorillaladders.com to complete the replacement parts submission form or call our customer service department at 1-800-867-6763. 9 a.m. - 4 p.m., CST, Monday-Friday.

TOOLS REQUIRED

15/64 DRILL       10 MM       10 MM       PUNCH       PHILLIPS SCREWDRIVER

INSTRUCCIONES DE SEGURO

1. El kit de ruedas Gorilla Ladders® pueden posicionar en varias posiciones. 

2. Las ruedas solo pueden usarse para transportar la escalera. 

3. Nunca permitas que las ruedas entren en contacto con ninguna superficie al usar la escalera o cuando estés ajustándola. De lo contrario, la escalera pudieran provocar lesiones o muerte.

4. Al usar la escalera con varias posiciones en el modo de extensión, las ruedas tienen que estar en la parte superior de aquella.

SERVICIO AL CLIENTE

Visita nuestro sitio web www.gorillaladders.com o llama al 1-800-867-6763. De lunes a viernes entre las 9 a.m. a 4 p.m., CST.
**REMOVE OLD FEET**

**STEP 1**

Extend the outer sections of the multi-position ladder to gain easier access to the feet rivets.

Locate the flanged side of the rivet.

**STEP 2**

Using the drill and drill bit, put light pressure on the rivet to remove the flange of the rivet. Repeat this process on both sides.

**STOP DRILLING IMMEDIATELY ONCE THE FLANGE IS REMOVED.**

**STEP 3**

Remove the old rivets using a punch and slide off the old feet.

---

**PASO 1**

Quita las remaches viejos usando el taladro.

**PASO 2**

Usando el taladro y la broca de taladro, aplica presión ligera sobre el remache. Deja de taladrar de inmediato una vez que se quita el reborde.

**PASO 3**

Retira las patas viejas usando un punzón y desliza las patas viejas.
**INSTALLATION OF NEW FEET**

**STEP 1**
Slide the new feet onto the rail.

**NOTE:** Replacement feet with wheels must be on the same outer rail.

**STEP 2**
Install the bolts, washers and lock nuts.

Tighten all bolts securely.

**STEP 3**
Attach the wheel warning label to the outer rails above each wheel.

Please reference figure for proper placement.
